

Not performing regular and proactive maintenance of your computer systems, be it desktops or servers, is a major cause of problems such as viruses, spyware, machines running slow and overall network downtime. The net result of this lack of preventive maintenance is productivity losses, possible data loss as well as paying huge bills to get problems fixed. Managed Services, from LOGICAL COMPUTER SOLUTIONS is an affordable low cost service that proactively monitors and maintains your network with the goal of minimizing IT problems you face - leading to lower downtime, higher end user productivity and lower technical support costs.

To learn more about our Managed Service options contact Bill Moore at 615-327-8475, 615-446-9140 or 866-72LOGIC, ext. 101 or via email at [bmoore@lcs3.com](mailto:bmoore@lcs3.com).
